### Sound-Off Muffler

Significantly reduces motor noise able to vacuum without waking up the neighbourhood.

### HE Flow-Thru Motor

High Efficiency thru-flow motor uses 30% less energy than the standard by-pass motors commonly used in large body central vacuums.

### Large Capacity Bucket

The viewing window lets you monitor the dirt level in the bucket.

### Self Cleaning Filter

The exclusive BEAM Self Cleaning Filter with GORE-TEX™ technology filters 98% of particles at 0.3 microns, without the need of ever having to buy separate filter bags. The BEAM Self Cleaning Filter protects the HE motor for prolonged product life, keeping superior suction performance over time.

Short body unit with strong motor performance and dirt bucket with window. Ideal for townhouses and small homes.
